

# Meet MPS Sentry Meters

MPS Sentry Meters bring parking into the 21st Century with smart technology that allows for:

- real time updates on parking space availability
- accurate time metering
- touchless payment

Royal Oak has four parking structures to serve as passenger waiting and delivery. **The first two hours are free all day in the structures** Monday through Saturday and parking is free on Sundays and holidays.

The parking structures are located on the corners of:

- S West Street and W 3rd Street
- W 2nd Street and S Washington Ave
- W 5th Street and S Lafayette Ave
- E 11 Mile Road and S Main Street

# ATTENTION UBER, LYFT & FOOD DELIVERY DRIVERS

NEW PARKING COMING  
TO ROYAL OAK THIS FALL

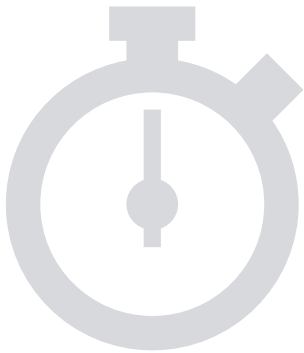

## NEW CHANGES IMPACT YOU

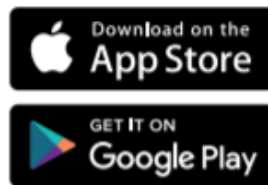

**SENTRY METERS USE  
SENSORS TO MONITOR  
VEHICLE PRESENCE  
WITHIN SPACES AND  
CHARGES DRIVERS  
BASED ON TIME PARKED**

A 5-minute grace period was created with drivers like you in mind. It allows drivers up to 5 minutes of payment-free waiting until your customer arrives.

**DRIVERS CAN MONITOR  
THEIR STATUS AND THE  
AMOUNT OF TIME SPENT  
IN PARKING SPOTS  
THROUGH THE SENTRY  
MOBILE APP**

Download the app, enroll in the program, and monitor time spent in the parking spot. The app's autopay function will take care of the rest should your time run over the grace period.

**ONLY PAY FOR WHAT  
YOU USE**

Sentry Meters keep track of how much time is spent parked and automatically debits your account, getting rid of excess spend on unused time. Monitor your parking session from your mobile phone or let the app's auto pay concierge function take care of it for you.
